Revision 1.0

1 Consultation

This policy should be read in conjunction with Sizewell C External Communication Policy.

Consultation with harbour users is vital through stakeholder group meetings supported by the Sizewell C Regional External Affairs & Development team related to the subject at hand (i.e. hazard review, safety management, equipment care). Feedback from these meetings is recorded for action where appropriate and reported in the Annual Report where necessary. The objectives of the consultation should include the following elements:

- Conveying to employees, users or others what some of their responsibilities are regarding their work or activity in the harbour or facility.
- Understanding and acceptance of the Duty Holder's role and responsibility under the code as well as the duty holder's policies and procedures.

1.1 Consultation Process

To ensure that SZC has strong and direct links with harbour users, local communities, and other external organisations with an interest in the harbour, a formal consultation mechanism should be maintained and managed supported by Sizewell C Regional External Affairs & Development team. Consultation is a continuous and wide-ranging process. It should include regular meetings with internal and external agencies.

Consideration must be given to the local use of the harbour by the multiple user groups including fish-erfolk, swimmers, runners and walkers, when forward planning work on Sizewell beach and in the harbour area.
